

Sprint 1 Retro

Sepid Ghorbani's Team

9 Topics - 0 New Tasks - 9 Reflections - 3 Participants

- 👉 **Effective Team Collaboration:** The team’s proactive approach in clearly defining roles and addressing previous conflicts has set a strong foundation for success. Next steps include institutionalizing these best practices—such as role clarity and conflict resolution protocols—and encouraging continuous feedback to maintain and enhance collaborative dynamics.
- 👉 **Swift Collaboration Success:** The rapid coordination observed during the sprint indicates a high level of team agility. Senior management could focus on capturing the factors that enabled this quick alignment and consider applying similar methods to other teams to amplify overall productivity.

Reflection Group	Votes	Type	Author	Prompt	Content	Discussion Thread
Effective Team Collaboration	3	Reflection	Anonymous	I Like	I liked that our team collaboration started well. We divided the roles clearly and talked about the conflicts	

					we had in the previous project so they would not happen again in this sprint.	
Swift Collaboration Success	2	Reflection	Anonymous	I Like	I like how quickly we cooperated together	
Clear Business Alignment	1	Reflection	Anonymous	I Like	I liked that we agreed on a clear business understanding first	
Decision Documentation Strategy	1	Reflection	Anonymous	I Like	I like that we documented decisions so we didn't re-debate them.	
Optimize Meeting Structure	1	Reflection	Anonymous	I Wonder	I wonder if our meetings are the right length/frequency for where we are now.	
Balance Integration and Features	1	Reflection	Anonymous	I Wonder	I wonder if we're spending enough time on integration vs. feature work.	

Aligning Definition of Done	1	Reflection	Anonymous	I Wonder	I wonder if our Definition of Done is the same for everyone.	
Early Feedback Loop	1	Reflection	Anonymous	I Wish	I wish we could demo earlier, even unfinished to catch misunderstandings sooner.	
Unified Merge Checklist	0	Reflection	Anonymous	I Wish	I wish we had one shared checklist before merging (build, lint, manual smoke test).
