

Sprint 2 Retro

Sepid Ghorbani's Team —

13 Topics - 0 New Tasks - 13 Reflections - 3 Participants

- 🗣️ **Enhance Early Documentation and Decision Recording:** Emphasize the importance of starting documentation early and capturing key decisions. This will reduce ambiguity and improve onboarding for future work. Consider setting up a standard template or process to ensure consistency.
- 🗣️ **Shift to In-Person Meetings When Possible:** Prioritize in-person interactions on campus to improve clarity and communication. This small pivot could significantly boost team cohesion and real-time collaboration.
- 🗣️ **Develop a Team Member Absence Strategy:** Implement clear procedures to align tasks when team members are absent. This proactive approach will help maintain productivity and ensure smoother project execution during unexpected team member absences.

▼ Table View

Reflection Group	Votes	Type	Author	Prompt	Content	Discussion Thread
------------------	-------	------	--------	--------	---------	-------------------

Document Early Initiative	3	Reflection	Anonymous	Start	start documnetation early	
Team Member Absence Strategy	2	Reflection	Anonymous	Start	Align task based on absence of team members	
Document Decisions Clearly	2	Reflection	Anonymous	Start	Start documenting key decisions and assumptions to avoid confusion later.	
Prioritize In-Person Meetings	2	Reflection	Anonymous	Stop	Stop scheduling our meetings online on university days. Since we are already on campus, having our daily meetings in person would make communication clearer and more effective.	
Strength in Unity	2	Reflection	Anonymous	Continue	Continue supporting each other when someone needs help.	
Clarify Before Acting	1	Reflection	Anonymous	Stop	Stop making assumptions about tasks without clarifying	

					expectations.	
Data Insight Progression	1	Reflection	Anonymous	Continue	Continue improving our understanding of the data step by step.	
Collaborative Insight Sharing	1	Reflection	Anonymous	Continue	Continue updating each other on the insights and findings we get during data analysis and problem understanding.	
Client-Driven Progress	1	Reflection	Anonymous	Continue	Continue using feedback from the client to guide our work.	
Define Problems First	0	Reflection	Anonymous	Start	Start focusing more on problem definition and data understanding before modeling.	
Collaborative Proactivity	0	Reflection	Anonymous	Stop	Being proactive doesnt mean being alone	
Enhancing Team Synergy	0	Reflection	Anonymous	Continue	Collaboration	
Cultivating Team Empathy	0	Reflection	Anonymous	Continue	Empathy towards team
